

Kurt A. Snodgrass
Chair
National LambdaRail

Kurt Snodgrass currently serves as Vice Chancellor for Information Technology and Telecommunications for the Oklahoma State Regents. In this capacity, he maintains oversight of the operations and budgets of the agency's Information Technology divisions at the State Regents as well as the Oklahoma Guaranteed Student Loan Program. Another primary responsibility is service as Chief Operating Officer for OneNet, Oklahoma's official telecommunications network for education and government. Over the past several years, he has served as Oklahoma's representative on the National Lambda Rail (NLR) Board of Directors and Sprint's Higher Education Advisory Board.

He holds a Bachelor of Fine Arts Degree from the University of Oklahoma as well as a Master of Science Degree from Oklahoma State University – emphasizing curriculum development and information communication technologies.
