

International Networking Talking Points

John Silvester

Presentation at NLR All-Hands, Denver, October 08, 2008

Internet2 International Strategy

Public Meetings

- Summary of Internet2 International Strategy discussions
 - Concerns about last round of IRNC
 - Internet2 as concept vs Network
 - Convener and Coordinator
 - Divest MANLAN?

Key Components of International Networking Technology

- Layer 3 connections
- Layer 2 connections
- Role of Exchange points

Possibilities for NLR to enhance visibility and international activities

- Interoperability – participation in control plane activities
- Extend Sherpa to regionals, internationally?
- Identification of research partnerships
- Identification of NREN-NREN partnerships
- Promotion of partnerships (and therefore NLR)

Some pointers

- IRNC Projects
